REMARKS

1. Please note that this document is meant to be used only as a **guideline** and reflects **average** shipping rates of our products per country / continent.
2. Exact shipping rates are calculated at checkout based on your purchase. You can create fake purchases without submitting your order to know the exact rates of your destination country.
3. Prices are in U.S. Dollars.
4. Insurance covers all accidents including loss and damage that might occur from our premises to the destination address. At checkout, you will have the option to add insurance or not. Insurance costs US\$25.00 per shipment.
5. You might notice that shipping rates may vary between neighboring countries. This is because we are working with two shipping companies that offer different rates. Priority is given to the company offering the best rates but unfortunately it only covers 65 countries. The rest of the countries are covered by the second company; hence the difference in the rates.
6. We reserve the right to change any price at any time based on the shipping companies' tariff fluctuations. We will update you on any new changes to rectify your prices.
7. If you want to know the shipping charges for a specific country, send us an email at info@jijifelice.com.
